

## WHY ARE RED LIGHT SAFETY CAMERAS NEEDED?

Red light cameras have led to significant decreases in intersection violations and crashes in communities throughout the U.S. and around the world. Photo enforcement is a proven deterrent that can bring about a behavior change that results in motorists obeying traffic signals, respecting fellow drivers and avoiding the crashes, injuries and loss of life caused by red light running.

Numerous studies have shown that red light cameras reduce violations. Recent studies show that photo enforcement leads to a reduction in intersection injury crashes as well.<sup>1</sup>
